Make a donation using a Donor-Advised Fund (DAF)

This example shows how to donate from your DAF to the Palos Verdes / South Bay Audubon Society chapter. It follows the steps used in a Fidelity Charitable Giving Account but is similar to any other process your DAF investment or banking account uses.

Start by logging into your existing DAF account to search for an organization:

You can enter the chapter's EIN, or name, to find our organization:

Seeing the chapter name appear indicates that the chapter is a legitimate tax-exempt organization that the DAF platform recognizes.

Select the chapter to provide the amount to contribute from your account:

Notes:

- The DAF account may require a minimum amount to donate
- Indicate “Where it’s needed most” or you may be able to designate a particular issue or project to apply your funding
- You can include your name on the donation or make it Anonymous if you prefer
- There may be a waiting period for the DAF platform to validate the chapter for the first donation
- Contact the chapter if you’d like to let us know of your submission, or if you have any questions: Treas@pvsbaudubon.org
